

Universal Credit - Key Facts

Get ready to claim Universal Credit

Here are some of the things you will need to do to be prepared:

- Make sure you have an email address.
- Make sure you have a bank/building society account.
- Try and put some money aside to help you through the claim process - there is a five-week wait from claiming Universal Credit before you receive your money.

You might also want to pay extra towards your rent to reduce any potential arrears.

Claiming Universal Credit

- Depending on which benefits you get, you might be better off on Universal Credit - especially if you get Working Tax Credits, have children or have a disability.
- This can be a complicated area so please get advice before you make the claim. Once you claim you cannot go back.

Do I have to claim Universal Credit?

- If you receive a Managed Migration Notice then you must claim Universal Credit as the benefits you get will stop.
- If you haven't received a Managed Migration Notice, get advice to make sure Universal Credit is right for you.
- The managed migration process is still quite new and you may not receive your migration notice until 2024.
